3D Dimensional Decorations (design 8, 9, 10, 11)

ENGLISH

Hoop stabilizer only in your mega hoop. Use the same thread in your bobbin as on top. Slide on the hoop and press start to embroider color # 1, which shows you where to place your fabric appliqué.

Slide off the hoop, turn the hoop and pin from upside the fabric of your choice to the backside of the hoop. Slide on the hoop and place the same fabric on top of the stabilizer. Press start to embroider color # 2 to embroider the fabric to the stabilizer. Slide off the hoop and trim the fabric on the back of the hoop and the front as an ordinary appliqué. Slide on the hoop and continue embroider."

SVENSKA

Spänn endast fast mellanlägg i din megabåge. Använd samma undertråd som övertråd för bästa resultat på båda sidor av broderiet. Sy färg # 1 som visar dig var du ska placera din tygapplikation. Ta bort bågen och vänd på den. Nåla uppifrån fast ditt valda tyg på baksidan av bågen och vänd igen för att sätta på bågen på symaskinen. Lägg på samma tyg även på ovansidan innan du syr fast tygapplikationen med färg #2. Klipp bort överflödigt tyg, både på fram- och baksidan och fortsätt brodera som vanligt.

ESPANOL

Coloque el estabilizador en su Mega bastidor. Utilice el mismo hilo en la aguja y en la canilla. Coloque el bastidor en la unidad de bordado y borde el color número 1, que muestra el lugar donde debe colocar el aplique.

Retire el bastidor de la unidad de bordado, dele la vuelta y sujete con alfileres la tela del aplique en la parte posterior del bastidor. Coloque el bastidor de nuevo en la unidad de bordado y coloque el mismo tejido de aplique encima del estabilizador. Comience a bordar el color número 2 que unirá la tela al estabilizador. Retire el bastidor y corte el tejido sobrante del aplique del revés y del derecho del bastidor como lo haría con un bordado de aplique normal. Vuelva a colocar el bastidor y continúe bordando.

DEUTSCH

Spannen Sie nur Stickvlies in Ihren Mega Hoop ein. Verwenden Sie gleichen Ober- und Unterfaden. Bringen Sie die Stickeinheit an und beginnen Sie Stickfarbe #1 zu sticken. Farbe #1 zeigt Ihnen, wo die Applikation platziert werden muß.

Nehmen Sie den Stickrahmen ab und stecken Sie den Stoff Ihrer Wahl auf die Rückseite des Stickrahmens. Bringen Sie den Stickrahmen wieder an und legen Sie auf die Vorderseite des Stickrahmens den gleichen Stoff, wie für die Rückseite. Beginnen Sie Stickfarbe #2 zu sticken, um die Stoffe auf dem Stickvlies zu befestigen. Nehmen Sie den Stickrahmen ab und schneiden Sie den Stoff von der Rück-/ sowie Vorderseite nahe der gestickten Kontur ab. Bringen Sie den Stickrahmen erneut an und sticken Sie weiter.

ITALIANO

Metti lo stabilizzatore nel telaio Mega. Utilizza lo stesso filato sopra e sotto. Inserisci il telaio nella macchina per cucire e premi il tasto Start per ricamare il colore n. 1, che ti mostra dove posizionare il tessuto da applicare. Togli il telaio, ruotalo e appunta il tessuto scelto dietro il telaio. Reinserisci il telaio e metti lo stesso tessuto sopra lo stabilizzatore. Premi Start per ricamare il colore n. 2, in questo modo il ricamo applicherà il tessuto allo stabilizzatore. Togli ancora una volta il telaio e ritaglia il tessuto dal dietro e dal davanti, come se fosse una normale applicazione. Inserisci il telaio e continua a ricamare.

FRANSAIE

Placez un entoilage dans votre Mega cercle. Utilisez le même fil en fil supérieur et en fil de canette. Installez le cercle et appuyez sur START pour broder la première couleur, qui vous montre où placer votre application en tissu.

Retirez le cercle, tournez-le et fixez le tissu de votre choix au dos du cercle. Réinstallez le cercle et placez le même tissu sur l'entoilage. Appuyez sur START pour broder la deuxième couleur qui sert à fixer le tissu sur l'entoilage. Retirez le cercle et découpez le tissu au dos et sur le dessus du cercle comme pour une application classique. Remettez le cercle en place et continuez à broder.
