

# Girl Doll Vest

Bring a ragdoll to life with this fun and creative sewing project! Use the MOMENTO™ Craft Cutting Machine to cut the vest for this cute doll.

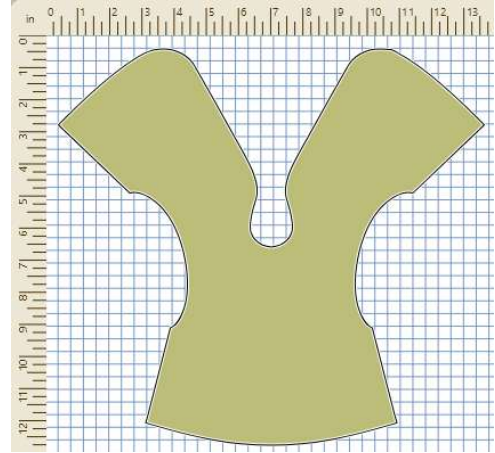

## What you need

- SINGER® MOMENTO™ Craft Cutting Machine
- Fabric
- Lining fabric
- Fabric Grip Mat 24" x 24"
- Rotary Blade
- Brayer
- Sewing Machine
- Thread
- Iron and Ironing Board

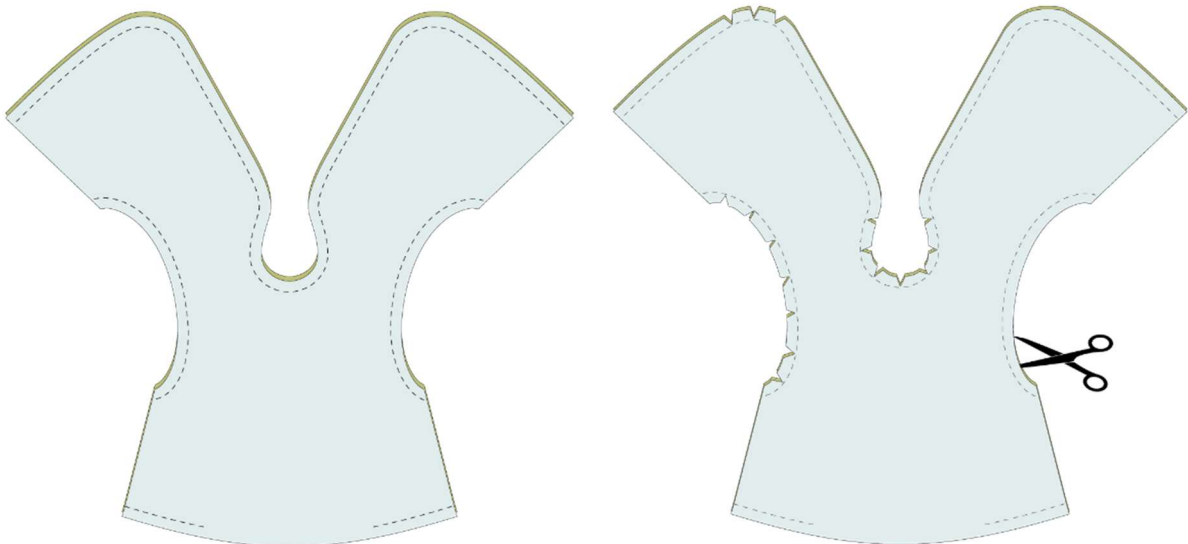

- Straight pins
- Hand sewing Needle
- Satin Ribbon

## Directions

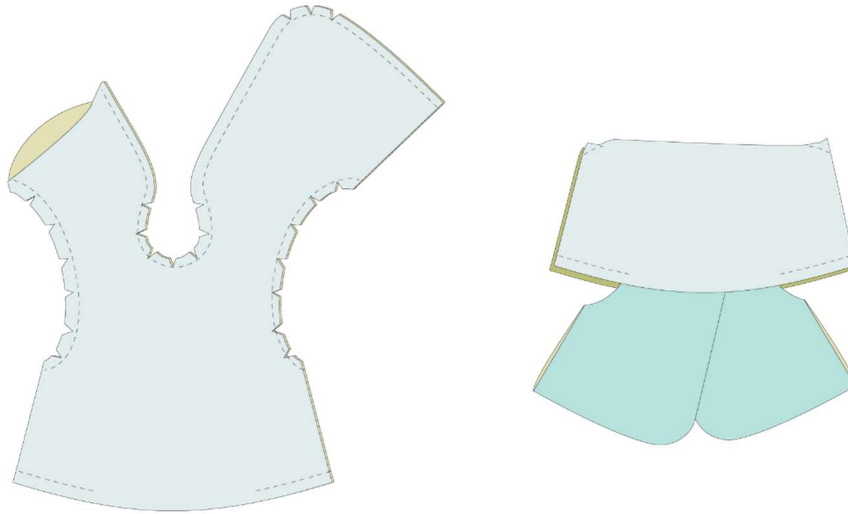

1. **Prepare the Fabric.** Cut the fabric to fit the 24" x 24" mat. Place the fabric onto the mat. Use a Brayer to adhere the fabric to the mat, smoothing out any wrinkles or bubbles.
2. **Cut the Fabric and Lining.** Open the project in canvas. Insert the Rotary Blade into the right carriage of your cutting machine. Select the correct mat size, material type and material size, in the software. Follow the on-screen steps to cut the main fabric. Place the lining fabric onto the mat and repeat the cut in the same manner for the lining fabric.

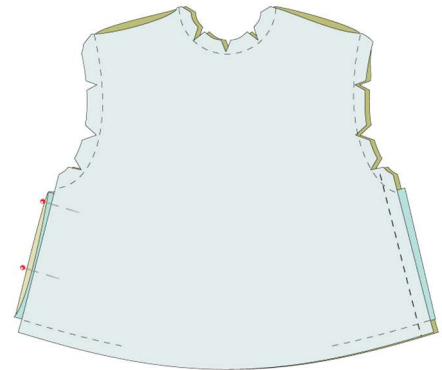

3. **Sew the Main Fabric and Lining Together.** Place the main fabric and lining fabric right sides together. Pin the layers to hold them in place. Set your sewing machine for straight stitch and sew around the edges using a ¼" (6mm) seam allowance. Leave the side seams and the bottom edge of the back open as shown. Snip the curved edges.

4. **Turn the Front Pieces.** Push the front pieces to the inside. Use a chopstick or similar, to push the fabric through. Do not turn the vest right side out just yet. Press the front curved edges of the vest.

5. **Sew the Side Seams.** Insert the raw edges of the vest front side seams into the openings in the back side seams. Pin the edges in place and sew across the four layers.

6. **Complete Final Touches.** Turn the vest right side out and press. Use a hand sewing needle and thread to stitch the opening closed. Cut two pieces of satin ribbon and sew one to each side of the vest front.
