

Cut Out Wall Art

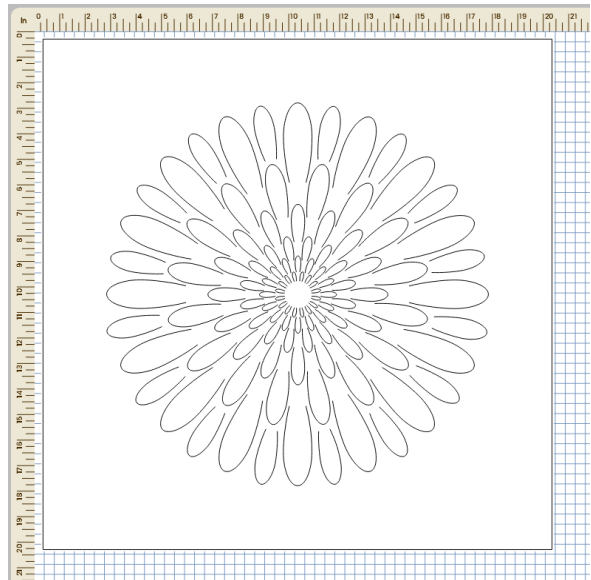

This large, floral-inspired wall art is cut from a single sheet of cardstock. The petals are lifted slightly, providing a three-dimensional appearance. The finished size of the project shown is approximately 20" x 20" (50cm x 50cm), so a large sheet of cardstock is used for this project.

What you need

- Large Sheet of Heavy Cardstock or Poster Board (White)
- Light Grip Mat 24" x 24"
- Basic Blade
- Spatula

Directions

1. Open the project in Canvas.

2. Place the material on your mat.
3. Go to the Output Menu and press Send to Machine. Follow the steps to cut the paper on your crafting machine.
4. Remove the material from the mat by gently bending and pulling the mat from the cardstock.
5. Use a spatula to lift up the petals and shape them to create the 3 dimensional effect.
