

# Wedding Confetti Cones

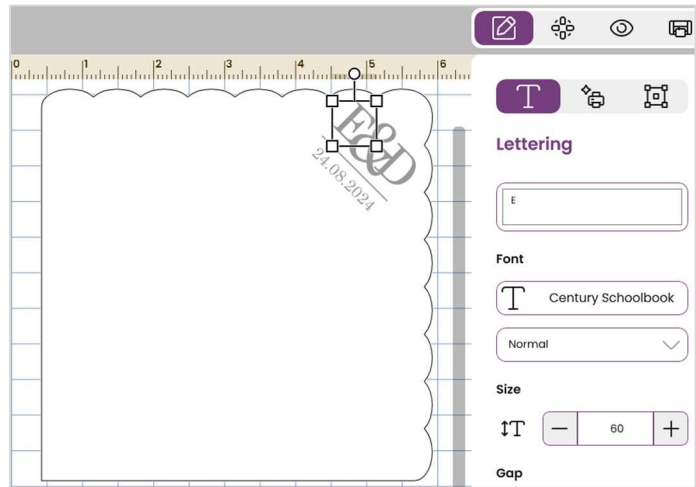

Confetti cones are a fun party favor for a wedding celebration. The monograms and date are editable so the cones can be personalized as desired. Just print the number of cones needed on your printer, then cut them out with your crafting machine. As an option, you could use a heart image from your crafting machine's built-in shapes to create stickers to embellish the outside of the cones. The finished size of the cone is approximately 3" x 7½" (7.5cm x 19cm).

## What you need

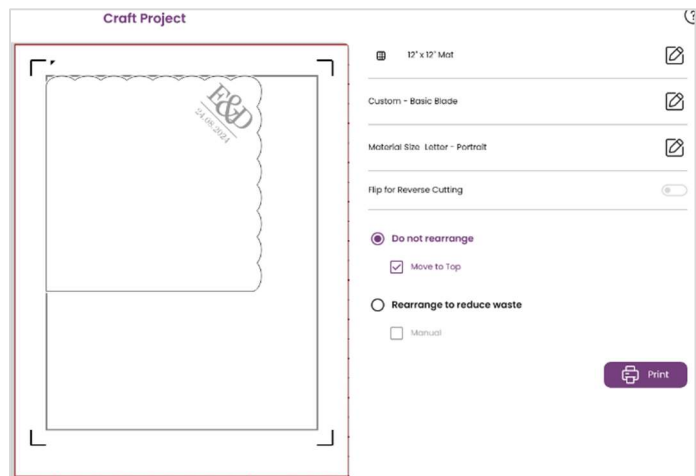

- Medium Cardstock Printer Paper (White)
- Printer
- Light Grip Mat 12" x 12"
- Basic Blade
- Quick Drying Adhesive

# Directions

1. Open the project in Canvas. Select the first letter in the monogram. In the Edit Menu, type in the letter you want. Then change the second letter and the date. Adjust the size and position if desired.

2. Go to the Output Menu and press Send to Machine. Follow the steps to Print the page on your printer. Print as many copies as you like.

3. Place the printed paper on your Light Grip Mat. Follow the steps to cut the cones on your crafting machine. Repeat the cut for all your copies.
4. Shape into a cone and secure with adhesive.

5. Optional: Cut silver adhesive vinyl hearts stickers to decorate the cones.
